Date: July 26, 2026

Venue: Zoom (for 1st session) & Google Meet (for 2nd session)

Specified Committee: Community Club Service

Area of focus: Home birth, Disabled mothers, Challenges & Health care

About “Maternal Health & Childcare”

Introduction:

Maternal Health and Child Care was a collaborative case discussion event organized by the Interact Club of Lalitpur, Interact Club of St.Xavier’s School, Jawalakhel, Interact Club of Rato Bangla School, Interact Club of British Model College, and Interact Club of Little Angel’s School. The event focused on discussing a real-life maternal and child health case scenario, promoting collaborative learning and meaningful discussion among Interactors.

Event Summary:

The event began with Interactor Sujana Amatya introducing the objectives and flow of the session before dividing participants into five teams representing the collaborating clubs. Each team discussed a case scenario on maternal and child health in breakout rooms and prepared their recommendations.

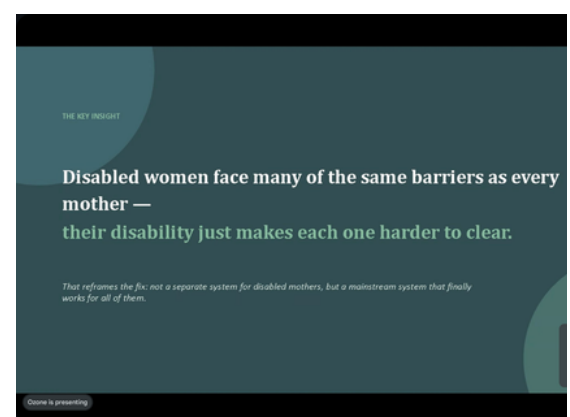

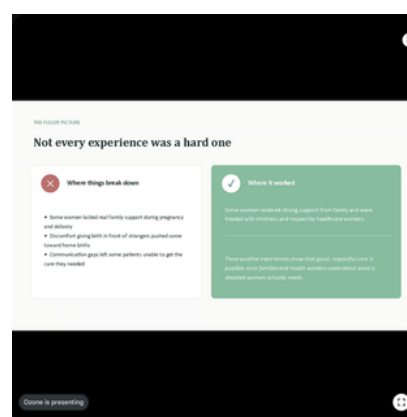

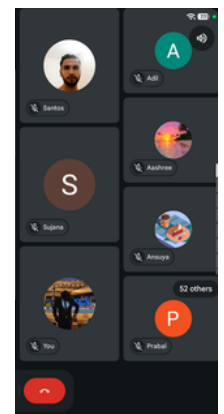

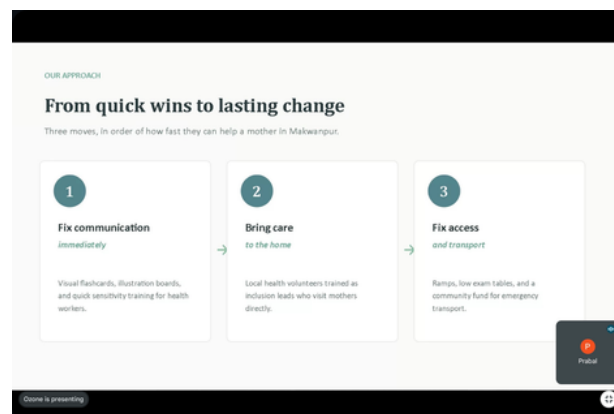

In the second session, Dr. Santos Poudel joined as the guest speaker. Interactor Michelle Sundas presented the case scenario, after which each team shared its discussion. Dr. Poudel provided valuable feedback and suggestions, followed by a summary of the discussions by Interactor Michelle Sundas. The event concluded with a vote of thanks delivered by Interactor Phurpha Diki Lama.

The Maternal Health and Child Care event successfully provided participants with an opportunity to analyze a real-life case scenario, exchange ideas, and develop practical solutions through collaborative discussion. The active participation of all five Interact clubs and the insightful guidance from Dr. Santos Poudel made the session both engaging and educational.

Overall, the event strengthened participants' understanding of the importance of accessible and inclusive maternal and child healthcare while encouraging teamwork, critical thinking, and informed decision-making. It served as a meaningful platform for learning and inspired Interactors to contribute towards creating a more inclusive and healthier community. The meeting was concluded with over 80 participants present.
