| 2) Rtn. Tap Krishna Shrestha | Rotary Club of Changu President |
| 3) Mr. Som Pradhan | Ward 2 Chairman of Changunarayan |

Area of Focus: Environment

About 'Brishya Ropan'

Introduction

The Interact Club of Premier International School, Rotary Club of Changu, and राष्ट्रको लागि २ घन्टा अभियान jointly organized a two hour tree plantation drive to promote environmental conservation and community responsibility. The project focused on increasing green coverage while encouraging participants to take an active role in protecting the environment. More than 250 trees were planted, and over 3 kilograms of waste were collected during the program. Seven members from the Interact Club of Premier International School worked alongside volunteers from the collaborating organizations and students from a local school. As a service project, the initiative reflected Rotary International's theme, "Create Lasting Impact." The event was chaired by Hon. Mr. Kiran Thapa Magar, Rtn. Tap Krishna Shrestha, and Mr. Som Pradhan.

Project Summary

The program commenced at 7:15 AM with the arrival of volunteers and participants at the designated plantation site. After a short orientation on the objectives of the event and proper tree planting techniques, participants were divided into groups and assigned different sections of the area. Each group worked together to plant saplings while ensuring they were properly placed and secured to support healthy growth.

Alongside the plantation activities, volunteers carried out a cleanliness campaign by collecting litter from the surrounding environment. Through the combined efforts of the Interact Club of Premier International School, Rotary Club of Changu, राष्ट्रको लागी २ घन्टा अभियान, and students from a local school, the project successfully planted more than 250 trees and collected over 3 kilograms of waste within two hours. The collaboration highlighted the importance of collective action in addressing environmental challenges and preserving natural spaces.

After completing the plantation and cleanup activities, refreshments were provided to all participants as a token of appreciation for their dedication and service. The event concluded with a shared sense of accomplishment, having contributed to a cleaner environment, increased green coverage, and greater awareness of environmental stewardship. The project successfully demonstrated how collaborative community service can create a lasting and meaningful impact.
