Date: 18th July, 2026

Location: Kuleshwor, Kathmandu

Collaborated with: None

Specified committee: Community

Sponsoring Organization (s): None

Guests: None

Area of Focus: Environment

About 'Doggo 2.0'

Introduction:

The project 'doggo' was a service oriented program focused on community engagement and awareness. It was hosted by Interact Club Of Premier Interact School, lead by the president Itr. Aarjal Adhiakri with the main theme centered around important, often overlooked bestfriends of humans, dogs. The event involved the club members and outsiders feeding dog healthy, rich in protien and high nutrition containing made by the club itself.

Project Summary:

Project Doggo 2.0 was done so that the stray dogs which are rarely fed with healthy foods in the street get to eat something that they actually deserve. The core of the project involved feeding dogs healthy foods and water, check the community if any dogs were harmed and to make the dogs feel special and happy. The feeding provided a happy environment in the neighbourhood as all the dogs gathered in a single place and had somewhat of a happy time eating. This project will be done monthly by the Club and weekly by some of our members
