

Artificial Intelligence for Students: Study Smarter, Not Lazier

Project Number: 5

Date: 26 September, 2026

Location: Online (Google Meet)

Specified committee: Professional

Sponsoring Organization: Rotary Club of Chitwan

Guests / Speakers:

1. ITR. Pratik Tiwari – Vice President : IC Sunrise English School (Speaker)

Area of Focus: Basic Education and Literacy

About

Artificial Intelligence for Students: Study Smarter, Not Lazier

Introduction:

On 26 September 2026, the Interact Club of SOS Hermann Gmeiner School Bharatpur had the privilege of serving as co-host for a timely and educational online session titled “Artificial Intelligence for Students: Study Smarter, Not Lazier.” The program was organized by the Interact Club of Sunrise English School and conducted via Google Meet. In today’s rapidly changing world, Artificial Intelligence is becoming an important part of education. This session was designed to help students understand how they can use AI tools wisely to improve their learning, increase productivity, and develop better study habits without becoming overly dependent on technology.

Project Summary:

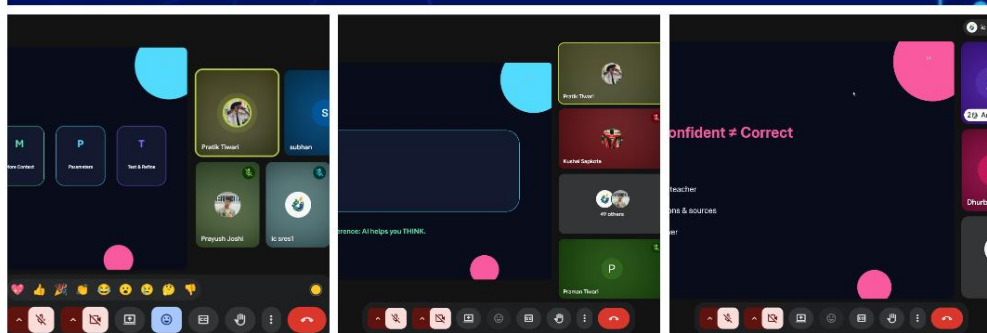

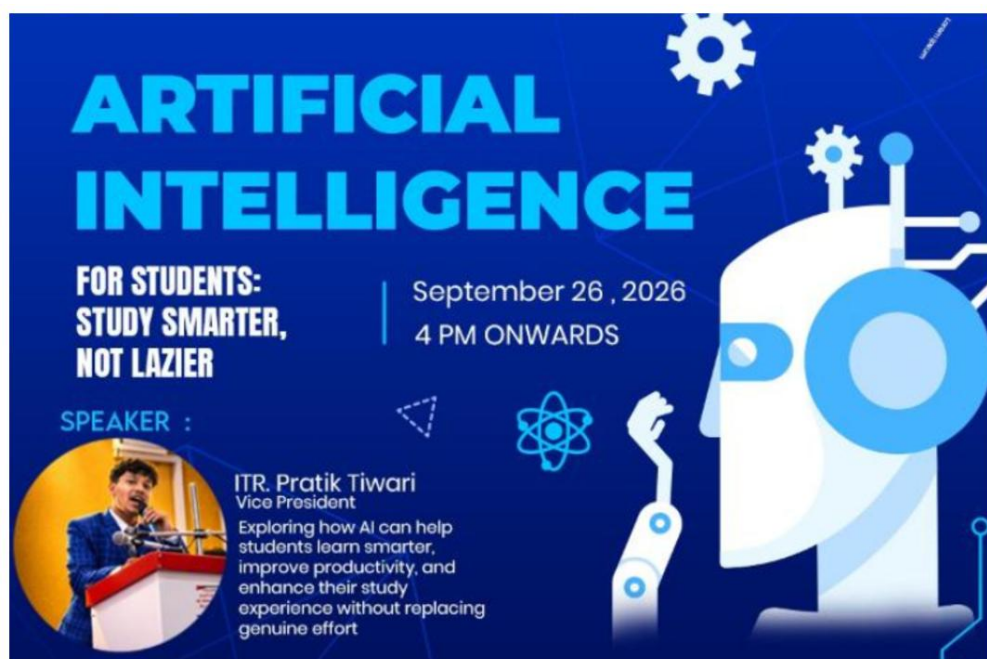

The session began at 4:00 PM and was led by speaker ITR. Pratik Tiwari, Vice President. He explained in a clear and practical way how Artificial Intelligence can support students in their academic journey. Key points covered during the session included using AI for better research, time management, creating study plans, clarifying difficult concepts, and improving writing skills while still putting in genuine personal effort.

The discussion was interactive and students were encouraged to ask questions. As co-host, the Interact Club of SOS Hermann Gmeiner School actively supported the event by promoting it

among members, encouraging participation, and helping ensure smooth coordination. Many students from different schools joined the session and showed keen interest in the topic. The program successfully created awareness about the positive and responsible use of Artificial Intelligence in education and motivated participants to study smarter.

Feedback of Attendees:

1. "The session was very practical and easy to understand. I learned how to use AI as a helper and not as a replacement for my own effort." – Participant
2. "Thank you to the organizers and co-hosts for arranging such a useful program. It will really help me in my studies." – Participant
