About 'Indra Jatra Health Desk'

Introduction:

During the first day of Indra Jatra, all Newari people and others come around a fixed path with incense sticks . The path is very long so the people very tired or they can get injuries. So to help every year since 2010 on this day we help the people .

Project Summary:

The Interact Club of Annapurna H.S.S as yearly did their legacy event of Indra Jatra Health desk. The event formally started at 3:00 pm when the people usually start to go towards the fixed paths with incense sticks. So to help them we placed a first aid kit in case anyone is injured. Also we provided Nimbu Fizz, Water, and Jeevan Jal to the tired and thirsty people. During the event we encountered many people with injuries, burns and more and we helped them as had a expert member of Red Cross to help us. We distributed drinks and helped the injured the whole afternoon till 7:00 pm. The event felt energetic as the Interactors got to feel the presence and see Majipa Lakhey. The event was truly a big success and this legacy event had a good vibe.
