

Sanitation and kite flying

Project number: 3

Date: October 13, 2026

Location: Vajra park

Collaborated with: eco club of vajra academy

Specified committee: club

Sponsoring organization: Rotary club of Godawari

Area of focus: sanitation and fun activity

About”(sanitation and kite flying)”

Introduction:

The Interact Club and Eco Club organized a day of fun, learning, and community service. The main objectives of the program were to encourage creativity among young students, promote environmental cleanliness, and build teamwork among students of different grades.

Summery:

The program started at 9:30 AM. The members of the Interact Club and Eco Club visited the students of Grades 1 and 2 and taught them how to make DIY kites. For two hours, we guided the young students through the kite-making process and helped them enjoy a creative and educational activity.

During the third period, students from Grades 7, 8, and 9 gathered to participate in a sanitation campaign at the park. We worked together to clean the surroundings and promote environmental awareness. After two to three hours of sanitation, we returned to school, had lunch, and took a short rest.

During the last two periods, we organized a fun kite-flying activity at the park. Students from Grades 6, 7, 8, 9, and 10 participated enthusiastically. Everyone enjoyed flying the kites, spending time together, and creating wonderful memories.

Overall, the project was a great success. It combined creativity, environmental responsibility, teamwork, and entertainment. Through this program, we learned the importance of helping younger students, keeping our surroundings clean, and working together to make our community a better place.

Feedbacks of attendees: The project was fun, meaningful, successful, teaching us the importance of creativity, teamwork, cleanliness, and community service.
