5. Interact Club of Matribhumi Baluwatar
Specified Committee : Community Service
Area of Focus : Disease Prevention and Treatment

Collaborated

About 'UNTIL ZERO: Every Child. Every Dose'

Introduction:

Every year on October 24 World Polio day is observed. Rotary played a vital role in the extermination of Polio and as another year comes many interact clubs decided to collaborate and do a session about Polio. This event was not only to talk about polio but it was to review what rotary has done for extermination for polio and what were the myths and true facts about polio.

Project summary:

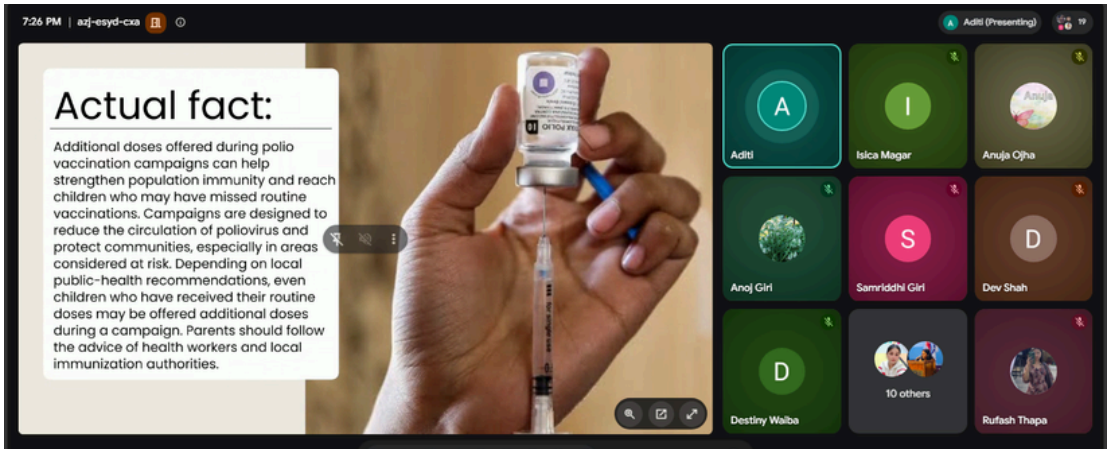

The event started with the presentation about polio on what is polio, What was the role of Rotary in Extermination of polio, Effect of polio before the vaccine, and more. This event highlighted the facts and figures about polio that most may have not knew. There was also a short quiz on the basis of the information in the presentation given. The aim this year wasn't just to educate but to show what Perseverance looks like as per the things done by rotary towards extermination of polio. So ourselves being introduced to such things to new things is a great opportunity to learn. Overall the event was a success many learned about new things while many had fun aswell participating in such event.
