Guests:

1. **Dhruba Kharal - Mayor Devdaha Municipality**
2. **Bidhaya laxmi Gurung - Deputy mayor Devdaha Municipality**

Area of Focus: Disease Prevention and Treatment

Introduction of the Project: Hosted

About 'Pedal for Polio-Free World'

Introduction:
The Interact Club of Devdaha organized the "Pedal for Polio-Free World" awareness cycle rally on 17 October 2026 at Khaireni, Devdaha, Nepal. The project aimed to raise public awareness about polio eradication and emphasize the importance of immunization in protecting children from this preventable disease. Through cycling and community engagement, the rally conveyed the message of unity, health, and collective responsibility toward building a polio-free world. The initiative was organized as part of the club's commitment to community service and public health awareness. It also reflected the global End Polio Now campaign supported by Rotary International.

Project Summary:
The "Pedal for Polio-Free World" cycle rally brought together members of the Interact Club of Devdaha and participants who shared a common commitment to raising awareness about polio eradication. The rally began at Khaireni and used cycling as a means of communicating the importance of immunization and protecting children from polio. Participants helped spread the message that eliminating polio requires continued public awareness, community participation, and collective action. The event encouraged individuals to support vaccination initiatives and contribute to the global effort to eradicate polio.

The project provided an opportunity for club members to demonstrate leadership, teamwork, and social responsibility while engaging in a meaningful public health awareness initiative. The rally was conducted one week before World Polio Day, and the event's photographs and videos serve as a record of the club's efforts to support the End Polio Nowcampaign. Through this initiative, the Interact Club of Devdaha reaffirmed its commitment to promoting a healthier and polio-free future for every child.
