Area of Focus : Disease Prevention and Treatment

About "The Sending of World Polio Day Post in the Polio Plus subcommittee group"

Introduction:

The World Polio Day Post Campaign was initiated by the Interact Club of Gyanda Academy to raise awareness and support for global polio eradication. Through the digital sharing of official commemorative graphics within the Polio Plus Subcommittee network, the initiative aimed to honor decades of progress, highlight the goal of achieving a polio-free world, and advocate for continued vigilance in public health. Through this symbolic digital outreach, members gathered online to reaffirm that the community stands united beside global health leaders in finishing the job to end polio once and for all.

Project Summary:

The project was conducted on 24th October 2026 across digital networks and the Polio Plus Subcommittee communication groups. Members of the Interact Club of Gyanda Academy coordinated the digital release of official awareness graphics highlighting Rotary's global target to end polio.

During the initiative, commemorative posters and educational content were shared to emphasize that the world is 99% of the way toward total polio eradication. Participants actively distributed the message across youth networks to reinforce the importance of immunization, public health vigilance, and Rotary's flagship PolioPlus program. Members also engaged in discussions regarding the role of youth advocacy in driving disease prevention and sustaining global health momentum.

The initiative was met with high praise across district leadership. District Governor Rtn. Vishnu Bahadur Karkee and Polio Committee Chair Rtn. Binita Hada both officially expressed their sincere appreciation for the Interact Club of Gyanda Academy's proactive digital outreach and commitment to the cause. Overall, the project successfully delivered a message of health advocacy, social responsibility, and international solidarity. It encouraged young leaders to remain steadfast in supporting global health goals and concluded with a renewed pledge from the club to stand alongside Rotary International until a polio-free world is achieved.
