Introduction
Interact club of Sunrise hosted online awareness program entitled “Artificial intelligence for student: study smarter, not lazier
”. Here students, generally participant were taught and explained the benefits and the uses of AI by the speaker Itr. Pratik Tiwari. Everyone got opportunity to learn different techniques and tricks to use AI smartly in studies and many more daily life tasks that might make one’s life easier and help them to work smartly instead of doing hard work or basically being lazy as promised by the title of the program. It was a helpful awareness program and matches the today’s demand.

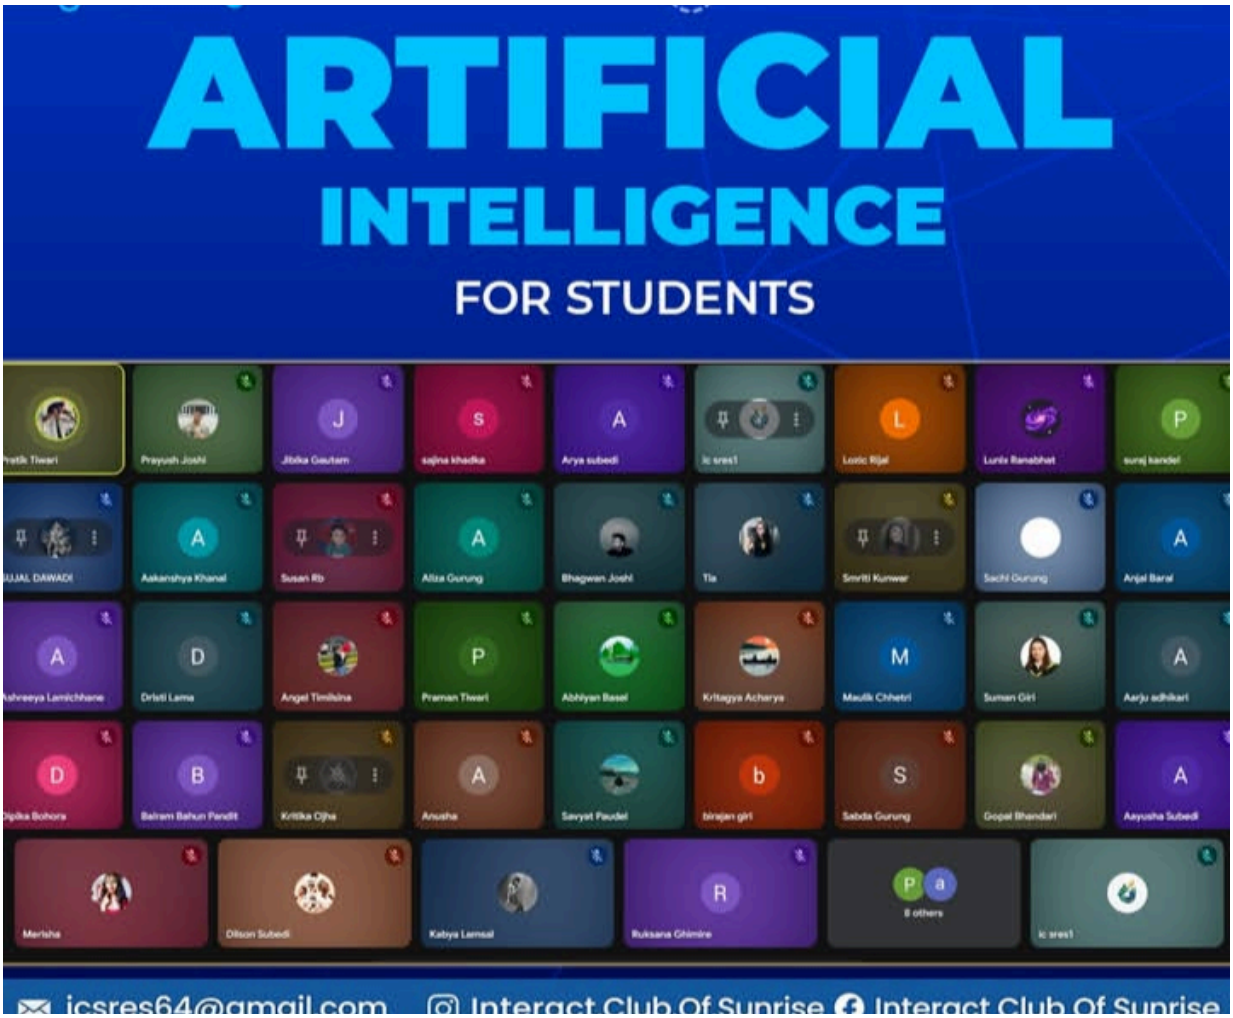

Project Summary:
In the event student were taught to use AI properly instead of being lazy and copying the work of the AI student were encouraged to make best and smart use of AI. The event was conducted via online platform where Itr. Pratik Tiwari – speaker for the event explained the content to the participants. The query of the students was also cleared up by the speaker. By the end of the program student go to know about many different AI tools that they can use for the schoolwork. They were given sources along with a morality that ‘copying kills creativity’. they were encouraged to use AI for smart work instead of copying the content provided by AI. Students were satisfied with the event and were very happy seeing and experiencing guidance of seniors. Students from school across Bharatpur participated in the event.
