About ‘Animal Rescue and Care Visit’

Introduction:

On November 7th, 2026, on the occasion of Helpful Saturday during World Interact Week, the Interact Club of Annapurna SOS visited the Chandani Animal Rescue and Care Centre. The club spent the day assisting the shelter and providing essential supplies needed for the animals' day-to-day care.

Project Summary:

The initiative centered around hands-on support and care for rescued animals at the shelter. Members spent time helping out the facility and providing essential supplies to ensure the cats and dogs were well-cared for.

We organized this with three main goals in mind:
1. Support Animal Welfare: Provide essential assistance and daily care supplies to help sustain the operations of a local animal rescue shelter.
2. Promote Compassion for Animals: Encourage empathy and kindness toward stray and rescued animals among youth.
3. Observe Helpful Saturday: Celebrate World Interact Week through meaningful community service directed toward vulnerable animals.

Conclusion:

Overall, visiting the Chandani Animal Rescue and Care Centre turned out to be a heartwarming and fulfilling experience for everyone involved. Interacting with the rescue animals and contributing to their daily care brought home the true spirit of Helpful Saturday.
